DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Rejections not maintained are withdrawn.

Response to Amendment

3. Claims 1-3 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is noted that Applicant has made corrections in claims 1 and 2, however, it appears additional claim language corrections are still needed:

In claim 1, line 1, the Examiner suggests change "which has" to --said backing having--.

In claim 1, line 4, and claim 2, line 5, the phrase "comprising a material selected from the group" is open ended language, and as such is clearly not proper Markush terminology.

4. Claims 1-3 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over NITTO DENKO CORP in view of Canary, substantially for the reasons set forth in section 5 of Paper No. 11 and section 4 of Paper No. 6, together with the following additional observations.

With respect to Applicant's Response arguing that "the references, as combined, fail to present a prima facie case of obviousness because the references fails to teach that the combination would reasonably be expected to work as a tape backing" (Response, page 4, first paragraph), the Examiner would like to reiterate that claim 1 is directed to "a paper backing for supporting a secondary layer" which is considerably broader than the adhesive tape art (see section 5 of Paper No. 11).

With respect to Applicant's argument that "no reference teaches the short fibers having a length within the range of about 3 to 20 mm and comprising a material selected from ..." (Response, page 4, 2nd paragraph), the Examiner reiterates that in Example 1, Canary teaches a wood pulp has a fiber length between 2 and 5 mm. As such, the short fiber length is anticipated by Canary (see section 3 of Paper No. 6).

Finally, the newly added method claim 5 clearly employ essentially conventional method steps only, and as such are rejected.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
